Juan, my inquiry is becoming a bit more pressing -- my side of the street was skipped again TODAY. Third time in 2 months or less.

Pete

Subject: MISSED street-sweeping 300 North block of Occidental Boulevard

Hi Juan. As we end one FY and begin another, I wondered if you have heard anything about any permanent/temporary cutbacks in residential street-sweeping.

Twice in the last 4 or 5 weeks (including this week), my block went unswept. I live on the Tuesday (even-numbered) side of the street, so I'm not affected by the many Monday holidays that hit my neighbors on the opposite (odd-numbered) side of the street.

With the 2 or 3 homeless vehicles resident across the street from me, as well as my neighborhood's 3-block horseshow providing an easy quick way to dump trash, a skipped week makes a real difference in livability (unlike some quiet neighborhoods of only owner-occupied detached houses with lawns, driveways, and garages).

Thanks for letting me know if you have heard anything.

Pete
